NEXT STEPS

Problem

**THERE ARE MANY PEOPLE IN THE WORLD
WHO WANT TO LEARN TO DRIVE FOR A
DRIVING TEST OR FOR JUST SKILL AND
THIS IS WHAT WE HELP THEM WITH DRIV AI**

Problem

WHY SHOULD YOU CARE?

The app uses artificial intelligence technology to help users learn to drive to pass a driving test or for just a skill or even learn to drive any vehicle, Anytime, anywhere, at the lowest price.

Pitch

Problem

THE PROBLEM IN NUMBERS

As you have seen, the problem with numbers is not easy at all. For the customer to drive, he only enters a lot of money and time in the normal way, and people still fail the driving test.

16%

16% of people are not able to drive

57%

57% of people fail the driving test

45

45 hours of professional lessons and 20 hours of practice it takes you to learn to drive with the normal way

Solution

OUR SOLUTION TO THIS PROBLEM IS VERY SIMPLE, ARTIFICIAL INTELLIGENCE. AS YOU KNOW NOW, ARTIFICIAL INTELLIGENCE HAS DEVELOPED TO THE DEGREE THAT WE WOULD NEVER HAVE IMAGINED SO WHEN THE USER STARTS LEARNING ON THE APP THE ARTIFICIAL INTELLIGENCE WILL SEE HIM FROM THE CAMERA. THE AI TELLS HIM WHAT TO DO AND MATCHES WHAT THE USER DID WITH THE RECORDER IN THE DATABASE. IF IT IS CORRECT, IT PASSES TO THE SECOND STEP .

Solution

MARKET SIZE

Solution

BUSINESS MODEL

Differentiator #1

Focusing on a mental illness called Amaxophobia, which will be explained in the next slide, which is the fear of driving, which will help us spread more and more.

Problem

FINANCIAL FORECAST

We need at least 1,000 users to start making a profit because the first users will be given special gifts and many free days, so they will not be financially beneficial, but they will help spread the application

\$20M

burning \$20m every year
to create new space for
drivers in every country

\$5M

burning \$5m in building
the software and
upgrading it .

\$7M

\$7m in marketing every
month

Why us ?

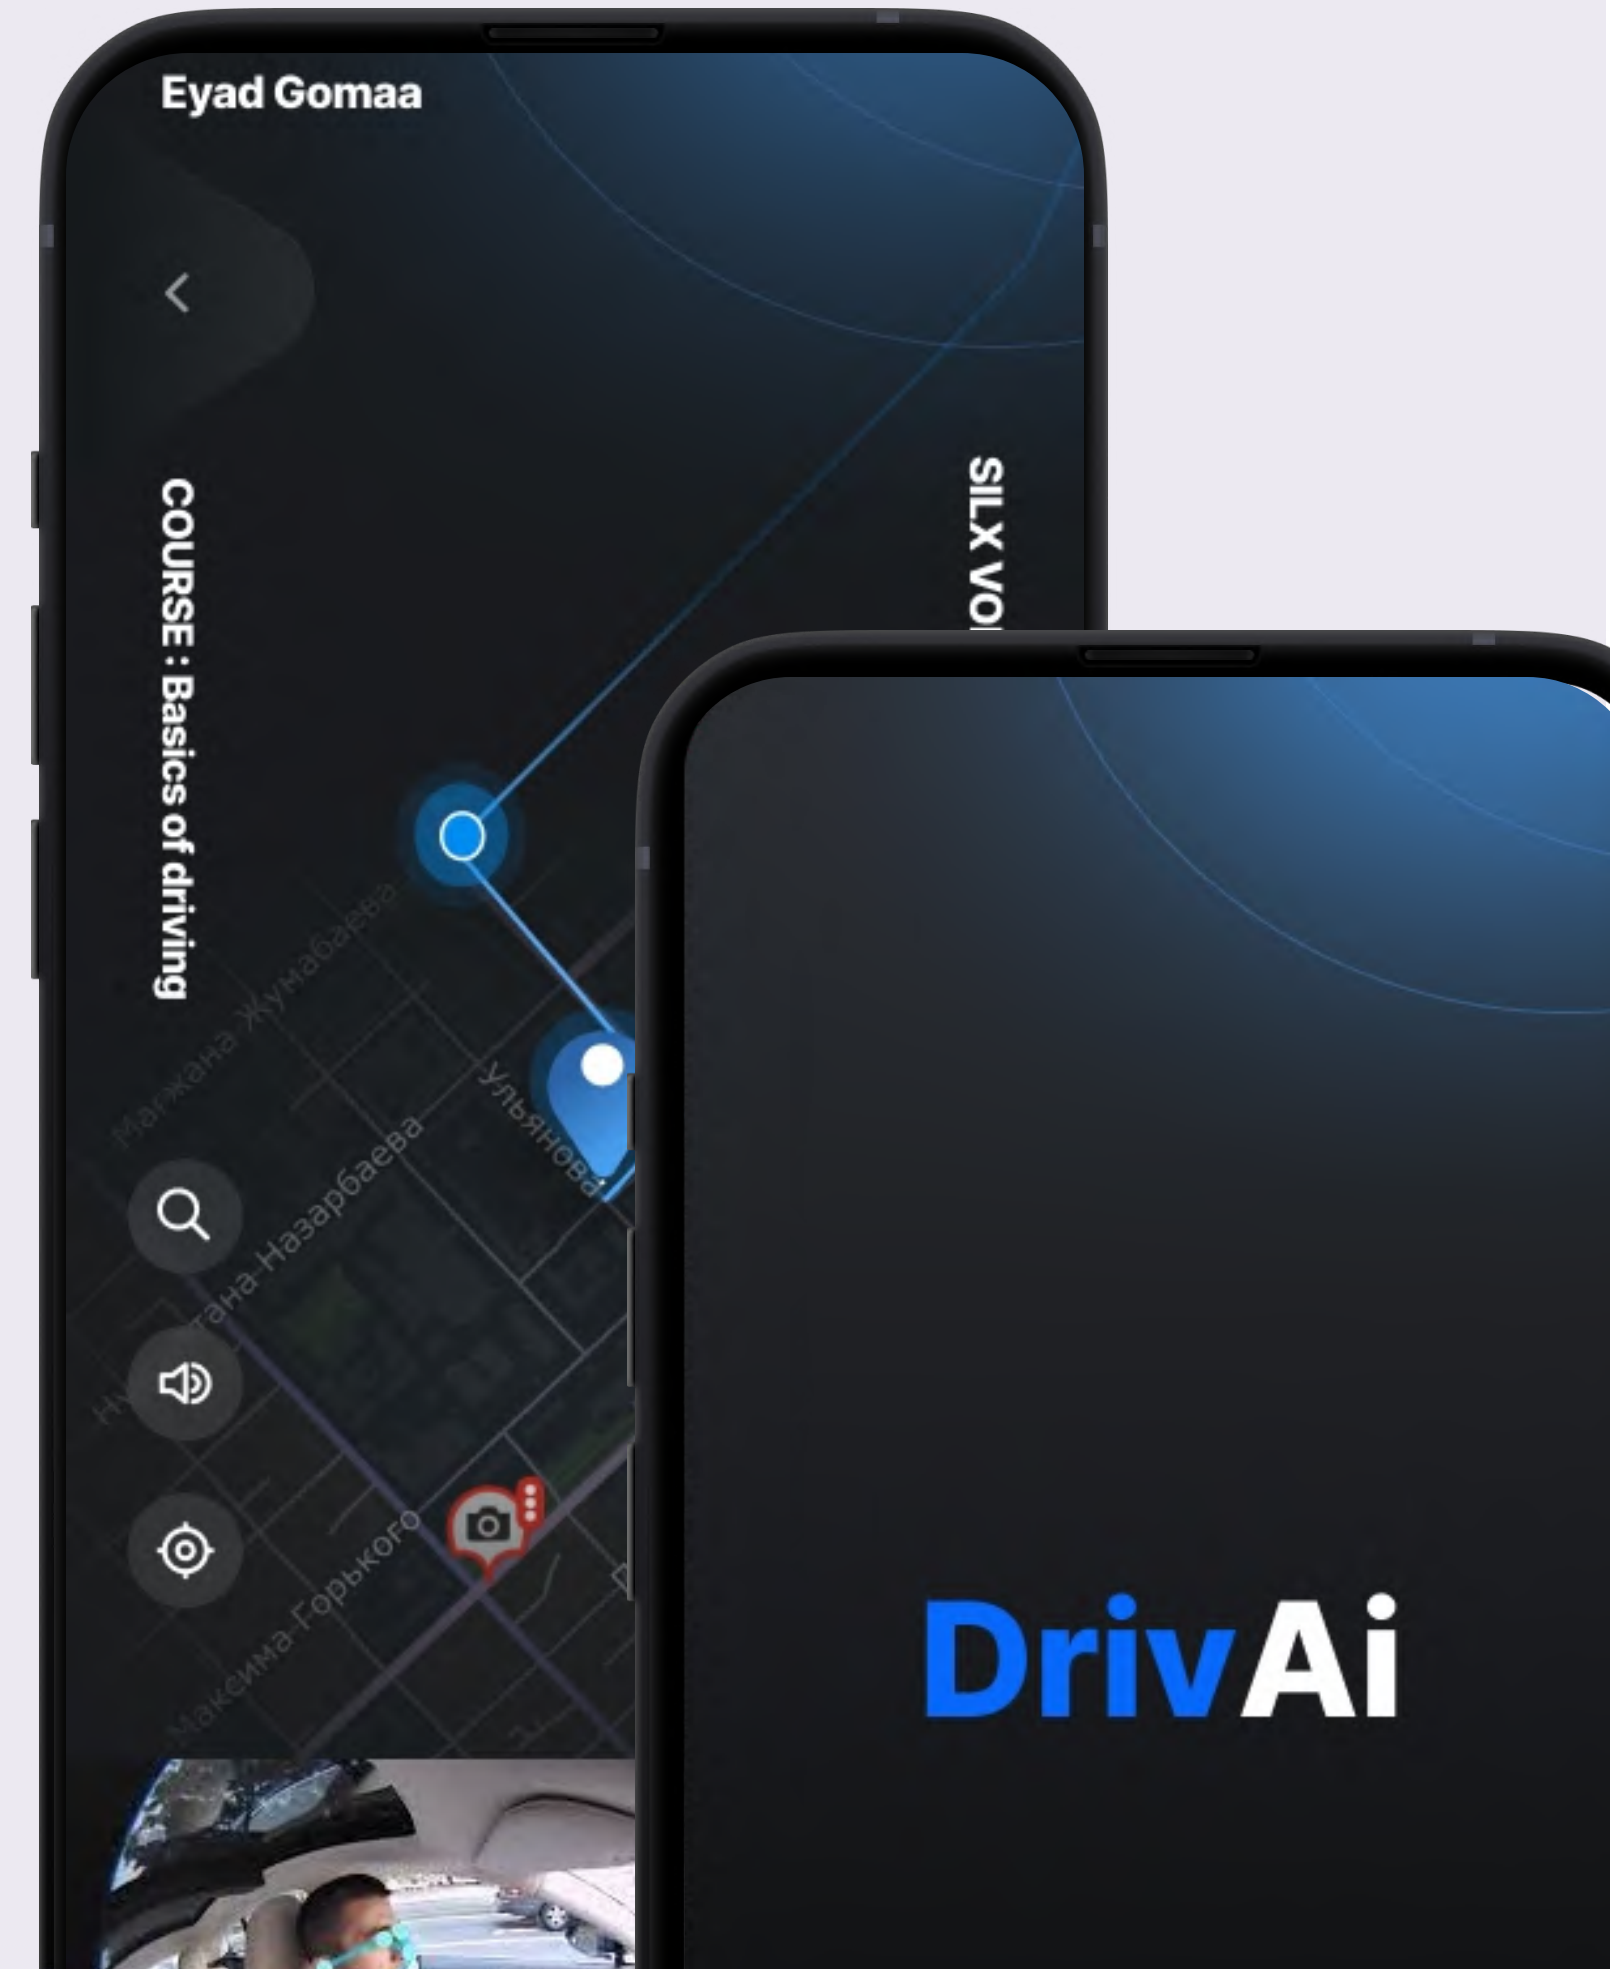

**WE ARE A GROUP OF DREAMERS AND WE
HAVE 5 YEARS OF EXPERIENCE IN MAKING
COMPANIES AND SOFTWARE ENGINEERS
FOR MORE THAN 7 YEARS NOW**

Solution

DRIVING IS EVERYWHERE

There is no doubt that driving is an important thing, as it facilitates human life to a surprising degree, but bad driving may also lead to the loss of human life, which is the most important thing on earth. even to become in cars that support self-driving because it is now not in a stable stage to be trusted, but with our artificial intelligence learns from the mistakes of humans, it can help

Pitch

Future

DRIV IN THE METAVERS

The metaverse is the next future, so we have to be a part of it, so we would gladly share with you our plan to enter the world of the metaverse and transfer the same simulation in reality to the metaverse, even if you don't own a car in reality, you can own it in the metaverse.

Case Study

AMAXOPHOBIA

Amaxophobia (Fear of Driving) **Amaxophobia (also called hamaxophobia)homophobia** makes you feel anxious or fearful when you drive or ride in a vehicle, such as a car, bus, or plane. With it, you have a fear of driving and may also get anxious being a passenger. This fear can interfere with work, socializing, and travel

“We were able to achieve our annual growth goals in under six months.”

Case Study

AMAXOPHOBIA NUMBER'S

6%

suffered by 6% of the population.

20y - 40y

between 20 and 40 years old. Women are the most affected by this phobia.

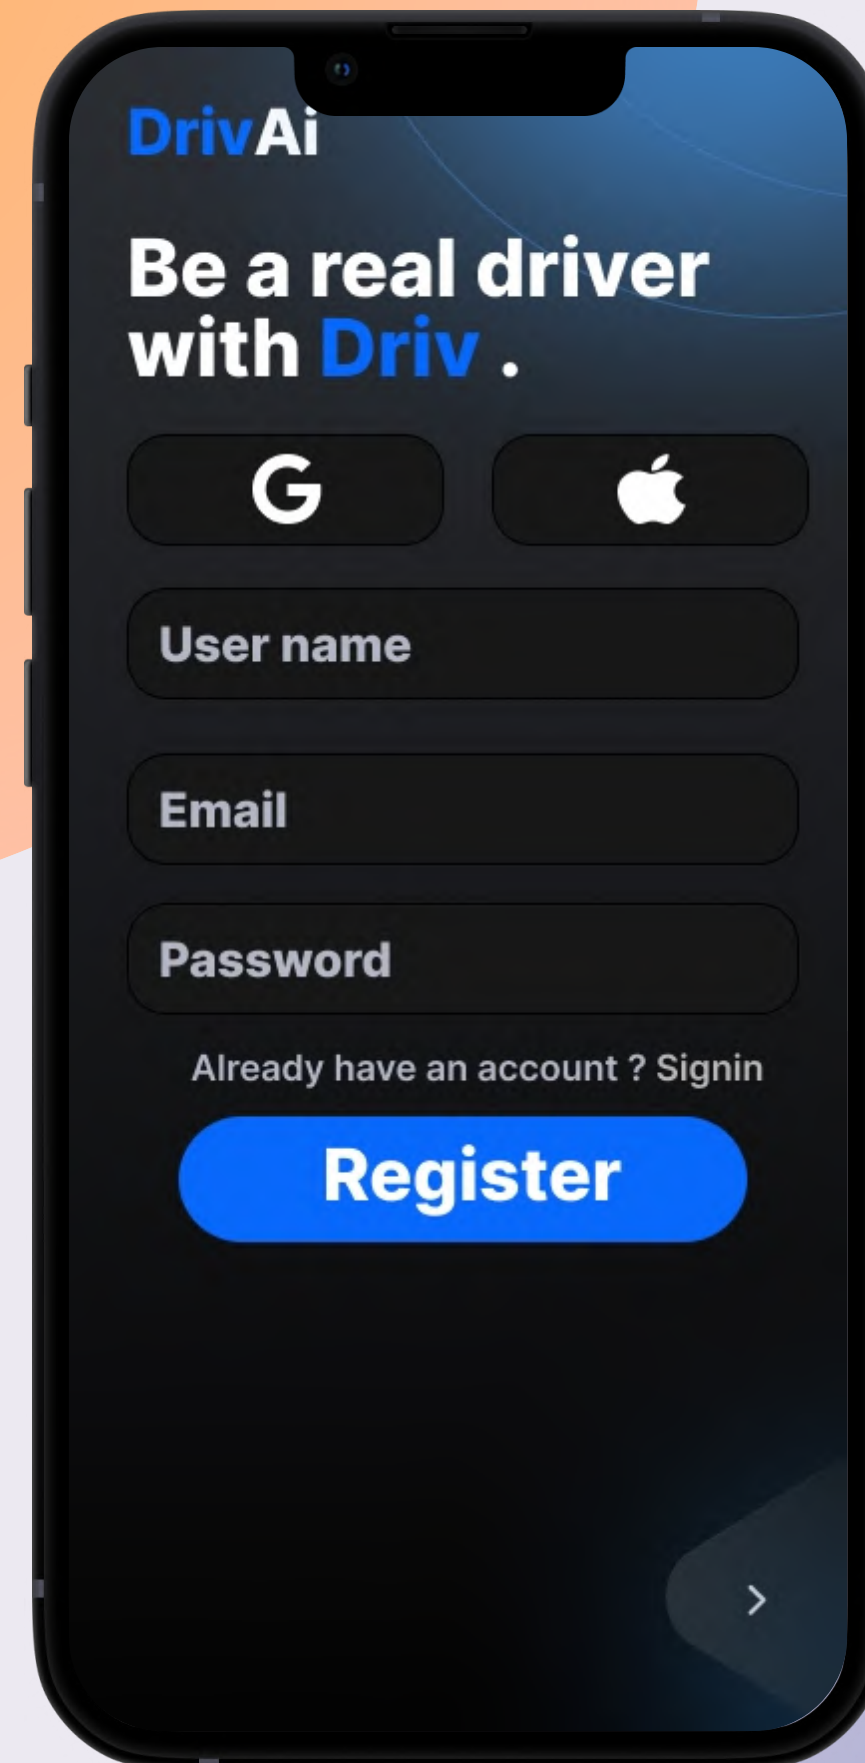

WITH OUR APP, WE
CAN HELP THEM TO
SOLVE THIS
PROBLEM

Solution

REGISTER #1

When you register a new account on the platform, artificial intelligence asks to see Google maps and get your location

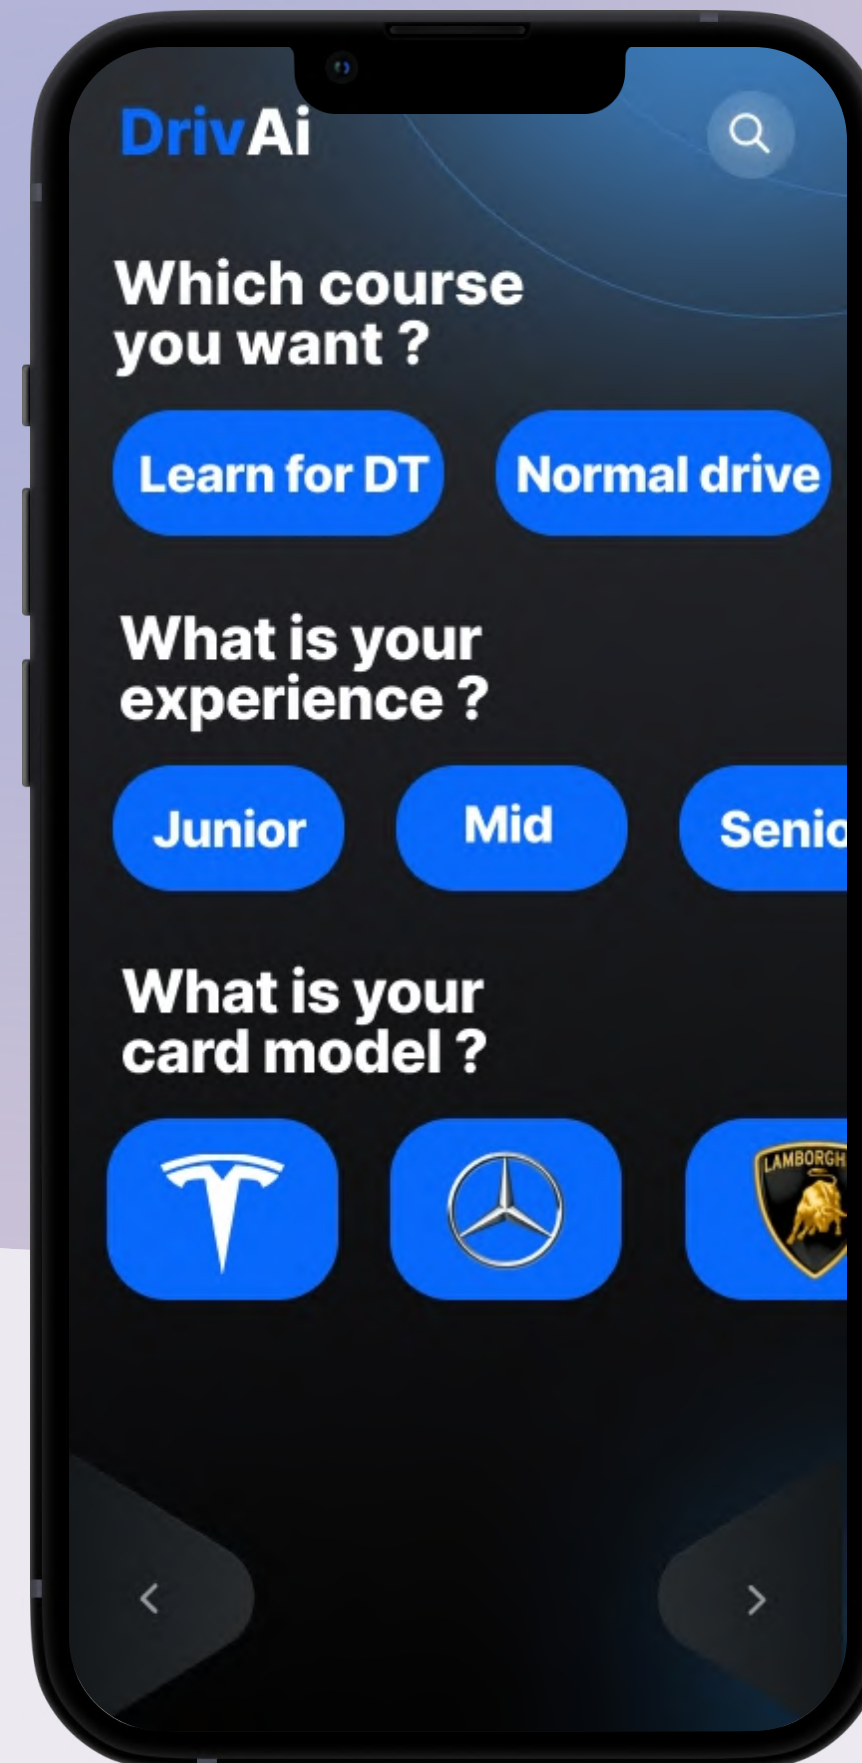

Pitch

Solution

COURSE #3

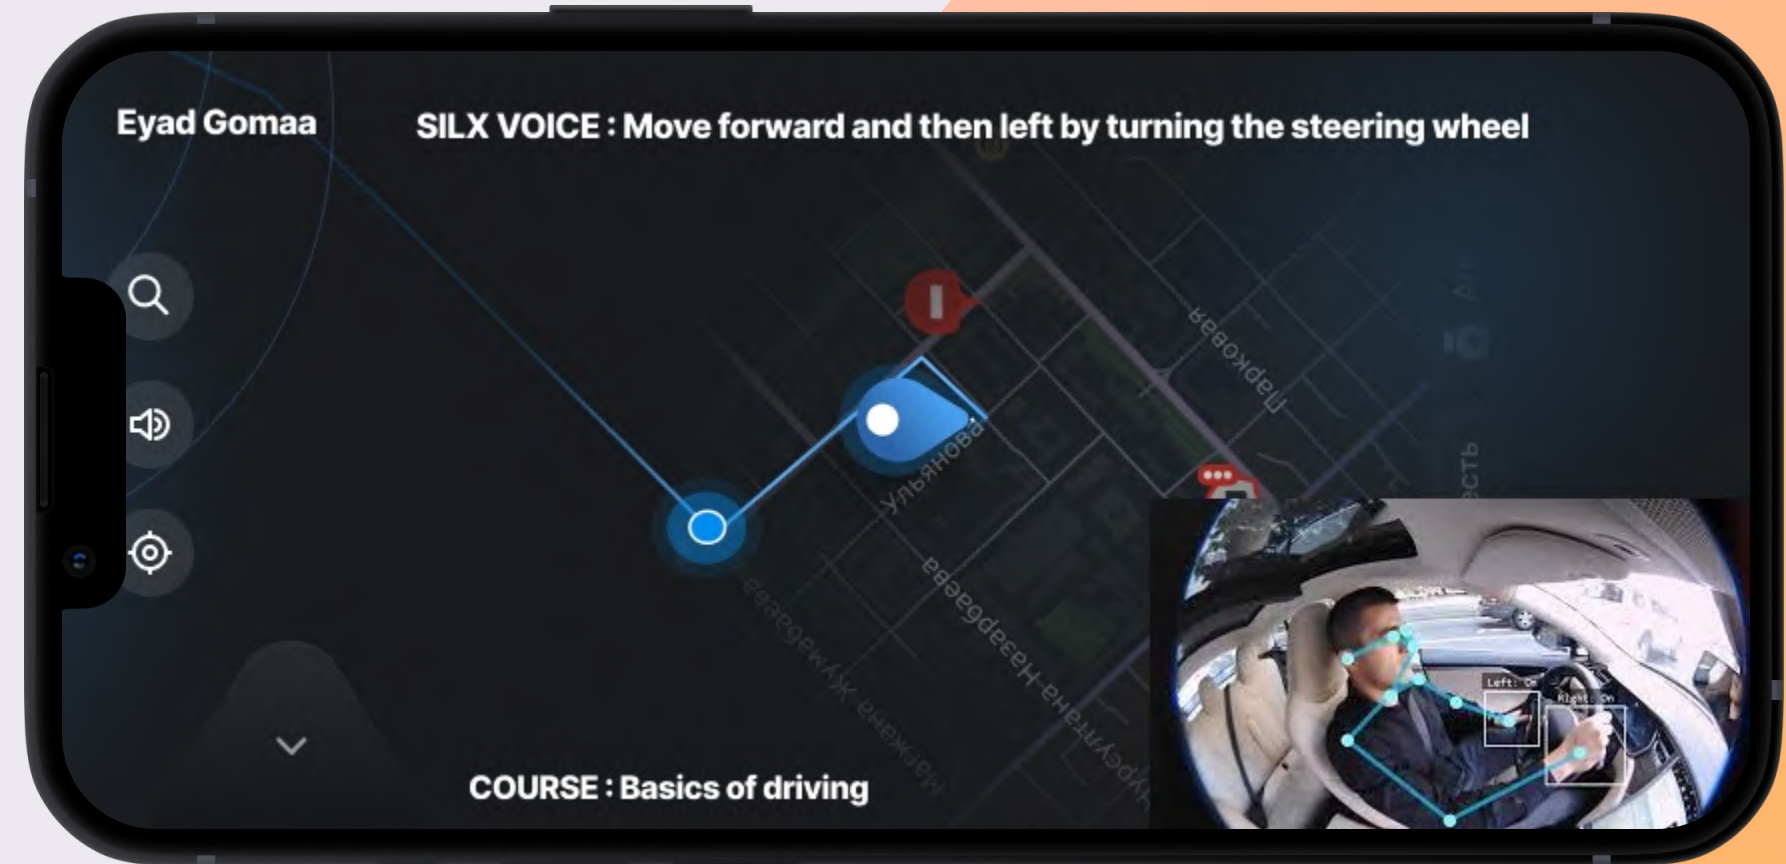

Just choose the course you want, whether it is learning to drive for a driving test or normal driving, etc

Solution

START #2

Put the phone on the car in a perfect position to capture all your movements, then listen to the sound that comes out from the SILX VOICE app and enjoy

Solution
